

Invitation

Practical seminar

Dynamic shooting with short gun and long rifle

Friday, 14. to Saturday, 15. October 2022
G24 SECURITY SCHIESS- &
TRAININGSANLAGE WIECHLICE/PL

Our practical seminar for (re-)starters in practical shooting with short guns and long rifles addresses those who, for official, hunting or private purposes want to get accustomed to shooting and shooting behaviour.

In free training, starting from building a stable shooting platform and natural point of aim, we will work on trigger control and then on shooting close groups in single and fast sequences.

" In the past, people stood closer to each other.
[...] Firearms did not carry far."
(Stanislaw Jerzy Lec)
